

# How to Make a Vintage Skeleton Pencil Topper

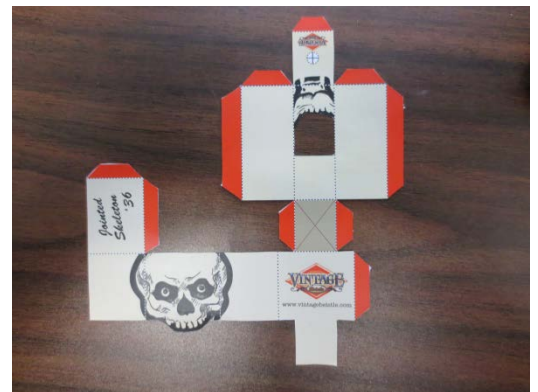

This Vintage Skeleton Pencil Topper is a quick and easy alternative to handing out candy on Halloween night. Take a few short minutes, and create this pencil topper for yourself!

## Materials:

- Scissors
- Tape
- Thick paper (or card stock)

1. Print the PDF on thick paper, or cardstock. With a pair of scissors, carefully cut out the Skeleton Pencil Topper.

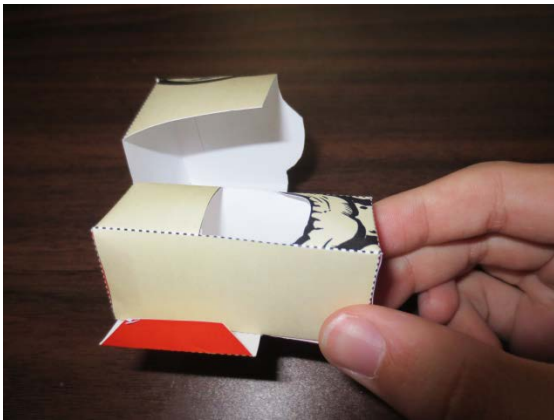

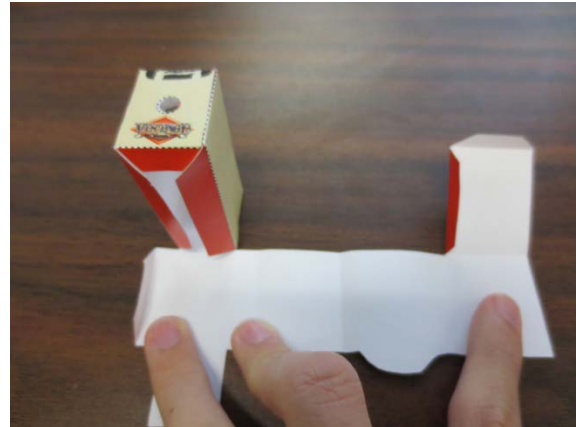

2. Next, fold on the dotted lines.

3. Now you're going to fold the jaw part of the skull. The jaw is the long rectangular box (as shown by the red circle). Tuck the orange flaps inside the box, and tape the box together.

4. When the jaw has been folded and taped together, it's time to fold the head. The head is wider than the jaw, so when folded correctly, the head will cover the jaw. Fold the head, and tuck the orange flaps inside once again, and secure them with tape.

5. Almost done! For your final fold, fold the top of the head over the jaw. Tape the head over the orange flap.

**Finished! Put these in Halloween goody bags, or keep them for yourself! Happy Halloween!**
